

Model:DM103

Model:DM103S

Model:DM103SL

Rotary Dimmer Switch Series

FEATURES

- Compatible with up to 150W dimmable LED /CFL bulbs as well as 600W Incandescent bulbs.
- Convenient operation, push on and off switch with full-range rotary dimming control.
- Easy installation, no removal of fins required for multi-gang installations.
- Classic and precise design, good match for creating room's ambiance.
- Slim and compact size for easy installation in a standard junction box.
- Compared with standard switch, rotary dimmer switch provides smooth and precise dimming performance as per your request so as to save energy.
- Low end adjust, allow users to preset minimum light level to avoid flickering at lower dimming levels and realize maximal dimming range.
 - * (only for DM103S and DM103SL)
- The dimmer features a location indicator LED light making it easy for you to find in the dark
 - * (only for DM103SL)
