

Installation Instruction

Smart Dimmer Switch
Single Pole

ELEGRP

PRODUCT INTRODUCTION

Mechanical Power Switch

To turn off power or restart device, lift up the bottom of the cover until you hear a click.

To restore power, push Manual Off back to its original position.

LED INDICATOR

White

Power On

Customizable in ELEGRP HOME App

Flashing White

Connecting to Wi-Fi

Flashing Red

Disconnected from Wi-Fi

WHAT'S IN THE BOX

Smart Dimmer Switch

Face Plate

Fixing Plate

2 x Wall Plate Screws
2 x Mounting Screws

Wire Labels

Wire Connectors

TOOLS NEEDED

Flat-Head
Screwdriver

Philips
Screwdriver

Wire Strippers
(recommended)

Test Pencil
(recommended)

CHECK COMPATIBILITY

Rating: 120VAC, 60Hz

Operating Temperature: 0°C~40°C (32°F~104°F)

Storage Temperature: -40°C~60°C (-40°F~140°F)

Wiring Type: Single Pole

Compatible Bulb Types

Dimmable LED

Dimmable CFL

Incandescent

Halogen

Max Load for Each Bulb Type

Bulb Type	Max Load for Single-Gang	Max Load for Multi-Gang
Dimmable LED/CFL	150W	
INC/HAL	450W	400W*

*In incandescent multi-dimmer installations, the reduction of the dimmer's capacity is required.

The white neutral wire is required to connect. The device will not function if the neutral wire is not connected.

BEFORE WE START

⚠️ WARNINGS: To avoid fire, shock, or death, **turn off power at circuit breaker or fuse** and test that the power is off before wiring!

⚠️ CAUTIONS: To reduce the risk of overheating and possible damage to other equipment, **DO NOT** install to control a receptacle, a motor operated appliance, a fluorescent lighting fixture, or a transformer-supplied appliance.

⚠️ AVERTISSEMENTS: Pour éviter le feu, les chocs ou la mort, **éteignez le disjoncteur ou le fusible** et vérifiez que l'alimentation est coupée avant le câblage!

⚠️ ATTENTIONS: Pour réduire le risque de surchauffe et d'endommagement possible d'autres équipements, **NE PAS** installer pour contrôler une prise, un appareil actionné par moteur, un appareil d'éclairage fluorescent ou un appareil alimenté par un transformateur.

Consult a qualified electrician if you are unfamiliar with electrical codes and regulations, or are uncomfortable performing the installation.

REMOVE OLD SWITCH

After power is turned off, remove wall plate and switch mounting screws. Carefully pull out the old switch from the wall box (**do not remove wires**).

Turn Off Power

Before removing, turn off power at circuit breaker or fuse and use a test pencil to confirm whether power is off before wiring or servicing fixture!

IDENTIFY & LABEL WIRES

Wire Label	Line	Load	Neutral	Ground
Wire Color	Black	Red or Black	White	Green or Bare Copper

STEP 1: Identify and Label Neutral & Ground

Neutral wires are usually white and Ground wires are usually green / bare copper.

STEP 2: Identify and Label Line & Load

Turn on power and test the remaining wires with a test pencil. When the test pencil glows, then that wire is line wire, but when the pencil does not glow at all, then that is load wire. **Turn off the power** at the circuit breaker before labelling the wires.

Be Safe

To prevent severe shock or electrocution, make sure your fingers **do not touch** the wall box, wires or the screw terminals when power is restored!

STRIP WIRES

Disconnect wires from the switches, make sure that the ends of the wires from the wall box are straight (cut if necessary).

Remove 0.6" (15mm) of insulation from each wire in the wall box.

CONNECT SWITCH

Match every wire as labeled

Screw on clockwise

Use provided wire connectors to connect wires in the wall box to the wires of the smart switch.

FINISH WIRING

Form all wires carefully into wall box, and mount switch with mounting screws supplied.

MOUNT WALL PLATE

Push a flat-head screwdriver into the slot at the bottom of the faceplate. Gently pry apart the two pieces.

Use the short screws to mount the fixing plate.

Push faceplate onto the fixing plate and snap it into place.

TROUBLESHOOTING

After installation, the switch does not turn on?

- Check that the bulb is properly installed and has not failed.
- Check if the circuit breaker or fuse is connected properly.
- Try swapping your Line and Load wires.
- Check if the bottom of the cover has been lifted up.

Difficulty in connecting smart switch to a WiFi network?

- Make sure the WiFi network is a 2.4 GHz network.
- The WiFi connection may not have good coverage. Try moving your WiFi router closer to the smart switch.

FCC COMPLIANCE STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This product must be installed and operated with a minimum distance of 20 cm between the radiator and user body. Contains Transmitter Module FCC ID: 2ANDL-CB2S.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

ISED CANADA COMPLIANCE STATEMENT

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- 1) L'appareil ne doit pas produire de brouillage;
- 2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

RADIATION EXPOSURE STATEMENT

This equipment complies with RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements CNR-102 établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

CAN RSS-247/CNR-247

ONE YEAR LIMITED WARRANTY

The warranty gives you specific rights and you may also have other rights, which vary in different states and countries. Our company warrants to the original consumer purchaser that this product is free of defects in materials and workmanship for 1 year from the purchase date. **This warranty does not cover labor for removal or reinstallation of the product and is void on any product installed improperly or in an improper environment, overloaded, misused, opened, abused, or altered in any manner.** Our company excludes incidental or consequential damages for breach of any warranty on this product. Some jurisdictions may not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so the above exclusions or limitations may not apply to you.
