# ELEGRP

MATTER SMART PLUG

FEATURES

• Matter control: Explore versatile connections by scanning the matter QR code using 3rd party matter-enabled Apps (including but not limited to HomeKit, Google Home, Amazon Alexa and SmartThings), ensuring seamless interoperability. Matter-enabled hubs specific to these 3rd party Apps are required.

• Voice control: Enjoy the hands-free convenience of controlling the appliances in your home with your voice via Amazon Alexa or Google Assistant; perfect for times when your hands are full or entering a dark room.

• Provide enhanced installation flexibility thanks to its mini and compact design, ensuring no interference with other appliances on the same receptacle.

• Create schedules (timer or countdown) to automatically turn on and off the appliances based on everyday routines or to simulate occupancy while you are on vacation to trick potential intruders.
